I used to pay \$125 a month to my cable company, just to watch my soap & have internet~ I pay \$39 a month for internet access as I have been using this network for over 2 wks and can access everything that interests me. It would be nice to get the Weather Channel and Lifetime channels, but I can live without them. I can also see my soaps at later dates but here I can watch live on the days they come out, so I really like this channel- 😊
